

# 3M™ Detection System Select Series

## Superior Security, Seamless Style

Now your security system can make a statement and blend seamlessly with your library's décor. Designed for use with 3M™ Tattle-Tape™ Security Strips, the new Detection System Select Series offers you the performance you need and security you can count on to protect your library items from loss. Along with a built-in red LED alarm light and a low frequency signal to minimize separation needed between the detection system and near-by metal objects interference, it also features an audible alarm and is completely safe for all magnetic media. With over 30 different color and design options available and a variety of mounting options and corridor widths, this unit provides the flexibility to keep up with the changing look of your library without replacing your security system.

### Innovative Design

- Choose from over 30 material/color choice combinations
- Option to change panels
- Fits a variety of library decors
- Alarm light adds visibility with style

### Excellent Security

- Designed for 3M™ Tattle-Tape™ Security Strips
- Photocell activation reduces false alarms
- Corridor specific alarming
- Installable within 18 inches of metal

### Customer Counter

- Integrated patron counter that is easy to read (close to eye level)

### Low Frequency Technology

- Minimizes separation needed between the detection system and near-by metal objects interference with electronic equipment

### Voice Alarm [optional]

- Wireless RF transmitter and receiver
- Easily record and change message of your choice
- Unobtrusive and non-discriminating

### Versatile Performance
